AMERICAN ZOOLOGIST

A QUARTERLY PUBLICATION OF THE

AMERICAN SOCIETY OF ZOOLOGISTS

EDITORIAL BOARD

KENNETH W. COOPER, Department of Cytology, Dartmouth Medical School, Hanover, New Hampshire

HOWARD A. SCHNEIDERMAN, Department of Biology, Western Reserve University, Cleveland, Ohio

JANE M. OPPENHEIMER, Department of Biology, Bryn Mawr College, Bryn Mawr, Pennsylvania

CHARLES M. VAUGHN, Department of Zoology and Physiology, Miami University, Oxford, Ohio

PAUL G. PEARSON, Department of Zoology, Rutgers—The State University, New Brunswick, New Jersey

HOWARD L. HAMILTON, Department of Biology, University of Virginia, Charlottesville, Virginia, *Managing Editor*

Volume 7, 1967

Printed by
Thomas J. Griffiths Sons, Inc.
104 Liberty Street
Utica, New York 13503

AMERICAN ZOOLOGIST is the official journal of the American Society of Zoologists. Most of the papers published originate in symposia of the Society and its annual refresher course. These papers usually combine review and original research.

There are four issues a year, with a total of not less than 430 pages. Ordinarily two issues of about 130 pages each contain original papers. The other two issues contain the programs of the Society and abstracts of the papers to be presented at the meetings. Previously these had been published as Supplements to the *Anatomical Record*. It is stipulated that abstracts be research reports of high quality, that they contain new results, and that they be written appropriately as part of the permanent scientific record.

SUBSCRIPTIONS, ADDRESS CHANGES, CLAIMS FOR NON-DELIVERY OR DAMAGE, PAYMENTS, AND ALL OTHER BUSINESS MATTERS, use the BUSINESS OFFICE:

Until Dec. 31, 1967, 333 No. Michigan Ave., Chicago, Ill., 60601; after Jan. 1, 1968, No. 12, Regent's Court, Box 2739, California Lutheran College, Thousand Oaks, Calif. 91360.

ADVERTISING AGENT: Samuel N. Turiel & Associates, until Dec. 31, 1967; Mrs. Mary Wiley, after January 1, 1968.

SUBSCRIPTION RATES. Subscriptions are $9.00 per volume (=year) in the Western Hemisphere, $10.00 outside the Western Hemisphere. Single copies are available at $3.00 each.

EDITORIAL OFFICE:

Howard L. Hamilton, Managing Editor
Department of Biology, 256 Gilmer Hall
University of Virginia,
Charlottesville, Virginia 22903

Use this office only for editorial matters.

INFORMATION FOR AUTHORS: Manuscripts should be sent to the Managing Editor (Address above). Abstracts of papers to be presented at meetings of the Society are to be sent to the appropriate program officer in accordance with the directions given by him in the call for papers.

AMERICAN ZOOLOGIST will follow the recommendations of the *Style manual for biological journals*. (Conference of Biological Editors, Committee on Form and Style. 1964. Am. Inst. Biol. Sci. Washington).

Authors of substantial articles must provide a synopsis or abstract of not more than 200 words to be placed at the head of the paper.

All typescript, including footnotes, tables, legends, and references, must be double-spaced.

Paging: Place on page 1: Title, Author's name, Institution, Running head (not over 40 letters), Author's full address.

Type the synopsis on page 2.

Start the text of the article on page 3. All material beyond the main text goes on separate pages following the text: References, Footnotes, Tables, Legends for figures.

Final locations of footnotes, figures, tables, etc., are shown in the text by a marginal note, encircled.

References: In the body of the text cite references by author and date: "(Smith, 1956)" ". . . but Smith (1956) claims . . . ." "In 1956, Smith reported . . . ." Do not abbreviate the date: "Smith, '56)." The list of references must be arranged in alphabetical order according to the last name of the first author. The names of other authors are placed in normal order. This is followed by the year, then by the title of the paper, then by the journal, volume number, and first and last pages. Examples:

Keilin, D., and T. Mann. 1944. Trace elements in relation to physiological function and enzyme systems. Proc. Nutrit. Soc. (Engl. and Scot.) 1:189-194.

Tyler, A. 1955. Gametogenesis, fertilization and parthenogenesis. p. 170-212. *In* B. H. Willier, P. A. Weiss and V. Hamburger (ed.), Analysis of development. W. B. Saunders Co., Philadelphia, Pa.

Capitalization: In headings and in the text use capital letters only when absolutely required by English usage; however, refer to a specific illustration as Fig. 3, Table 2, etc., with caps. Show italics by a single underline for *Generic* and *specific* names but not elsewhere except when essential.

Illustrations: Width when printed will be 2⅝" (67 mm) for a single column, or 5½" (140 mm) for double column.

American Zoologist, Vol. 7, No. 4, November 1967. Published Quarterly by the American Society of Zoologists, Publication office, 104 Liberty Street, Utica, N. Y. 13502. Editorial office, Department of Biology, 256 Gilmer Hall, University of Virginia, Charlottesville, Virginia 22903. Business office, 333 North Michigan Avenue, Chicago, Illinois 60601. Second class postage paid at Utica, N. Y.

NOTICES

CHANGE IN BUSINESS MANAGEMENT

Effective January 1, 1968, Mrs. Mary Wiley, Box 2739, California Lutheran College, Thousand Oaks, California 91360, will become Business Manager of the American Society of Zoologists. All correspondence about business matters, including advertising, subscriptions, claims, changes of address, purchases, and payments concerning the *American Zoologist,* should be addressed to Mrs. Wiley.

INTERNATIONAL CONGRESSES

The Sixth International Congress of Embryology will be held in Paris, France, September 1-7, 1968, under the auspices of the International Institute of Embryology. The theme is "Nucleocytoplasmic Interactions During Differentiation," and there will be invited and contributed papers as well as discussion groups. Participants may apply to the Society for Developmental Biology prior to March 15, 1968, for travel funds. Write to Mrs. Lilyan C. Saunders, Business Manager, 32 Linda Court, Elsmere, N. Y. 12054, for further information.

The *Third International Congress of Histochemistry and Cytochemistry* will be held in New York City, August 18-22, 1968. Papers in the broad areas of theoretical and applied histo- and cytochemistry, including qualitative, morphological, and quantitative studies using normal or abnormal animal or plant material, may be submitted for consideration by the Program Committee. These should be received by the Secretariat not later than January 31, 1968, and must be on Abstract forms. Write to Dr. Robert M. Rosenbaum, Secretary, Department of Pathology, Albert Einstein College of Medicine, New York, N. Y. 10461.

The Fifth International Congress on Photobiology will be held at Dartmouth College, Hanover, New Hampshire, August 26-31, 1968. The Announcement and further information may be obtained by writing to Dr. S. A. Gordon, Secretary-General, Argonne National Laboratory-202, Argonne, Illinois 60439.

INDEX TO VOLUME 7

This index covers only the major papers, their authors, and principal headings. It does not include the abstracts. For the latter there are separate indices to authors on pages 218-219 and 811-814. If one wishes to locate an abstract, author unknown, or search for a subject, the synopses of programs on pages 171-172 and 671-672 will prove useful in locating appropriate sections of the program. Titles and authors, pages 173-186 and 673-709, will then lead to the abstract desired. Minutes of business meetings, officers, and reports are entered only under *American Society of Zoologists.*

ABBOTT, BERNARD C., (with GRAHAM HOYLE), Dynamic properties of giant muscle fibers of the barnacle, 611.
Abstracts, see note above.
  index of authors, annual December meeting, 811 814.
  index of authors, August meeting, 218-219.
